

# CME Group Signs 10-Year Partnership with Google Cloud to Transform Global Derivatives Markets Through Cloud Adoption

Companies to co-innovate to deliver expanded access, new products, and more efficiencies for all market participants

Google also makes \$1B equity investment in CME Group

CHICAGO and SUNNYVALE, Calif. — November 4, 2021 — CME Group and Google Cloud today announced a 10-year strategic partnership to accelerate CME Group's move to the cloud and transform how global derivatives markets operate with technology.

"Through this long-term partnership with Google Cloud, CME Group will transform derivatives markets through technology, expanding access and creating efficiencies for all market participants," said Terry Duffy, Chairman and Chief Executive Officer, CME Group. "To ensure a smooth transition, we will work closely with clients to implement a phased approach. This partnership will enable CME Group to bring new products and services to market faster – all in a flexible and scalable environment that will create a wide range of opportunities for the marketplace."

Under the agreement, CME Group will migrate its technology infrastructure to Google Cloud beginning next year with data and clearing services, and ultimately moving all of its markets to the cloud. The partnership will focus on delivering significant benefits to all market participants by:

- **Expanding access:** Using Google Cloud's fast, secure, global network, CME Group will be able to scale its infrastructure, while increasing access for more market participants, optimizing costs, and helping onboard new users more easily and quickly.
- **Creating real-time data and analytics capabilities:** Google Cloud's data analytics and machine learning solutions will help CME Group provide clients with on-demand information and toolkits for developing models, algorithms, and real-time risk management.
- **Introducing new products and services:** With Google Cloud's technology, CME Group will co-innovate new products, such as risk mitigation tools, analytics services, and user-centric platforms. The two companies will also continue to explore ways to work together on go-to-market initiatives that deliver new innovations for CME Group's customers.
- **Increasing efficiencies:** By moving to the cloud, CME Group will be able to streamline operations, optimize its IT infrastructure, and automate non-trading operations.
- **Driving resiliency in the financial markets ecosystem:** As CME Group's trusted cloud provider, Google Cloud will deliver open source technology standards and enhanced cybersecurity protection, underpinned by a global network.

"CME Group has a century-long track record of helping investors access new markets and is known for innovation in financial markets," said Thomas Kurian, CEO, Google Cloud. "Bringing together CME Group's best-in-class financial talent with Google Cloud's deep engineering expertise will help accelerate technological innovation in capital markets infrastructure."

To help facilitate the cloud migration for CME Group, Duffy has appointed Ken Vroman to a new role as Chief Transformation Officer.

Google has also made a \$1 billion equity investment in a new series of non-voting convertible preferred stock of CME Group.

## About CME Group

As the world's leading and most diverse derivatives marketplace, CME Group ([www.cmegroup.com](http://www.cmegroup.com)) enables clients to trade futures, options, cash and OTC markets, optimize portfolios, and analyze data – empowering market participants worldwide to efficiently manage risk and capture opportunities. CME Group exchanges offer the widest range of global benchmark products across all major asset classes based on interest rates, equity indexes, foreign exchange, energy, agricultural products and metals. The company offers futures and options on

futures trading through the CME Globex® platform, fixed income trading via BrokerTec and foreign exchange trading on the EBS platform. In addition, it operates one of the world's leading central counterparty clearing providers, CME Clearing.
