

Accenture Federal Services Launches 'Federal AI Solution Factory' with Google Public Sector

Collaborative Hub to Rapidly Prototype and Pilot AI-powered Solutions for Federal Agencies Signals Next Phase in Strategic Alliance

WASHINGTON, Oct. 15, 2024 /PRNewswire/ -- [Accenture Federal Services](#) has launched the "Federal AI Solution Factory" with [Google Public Sector's](#) Rapid Innovation Team (RIT) to speed the prototyping and piloting of AI-powered solutions for federal agencies.

The Federal AI Solution Factory combines Accenture Federal Services' experience in human-centered design, industry expertise, and ability to translate federal mission needs into real-world AI and analytics solutions at scale, with Google Cloud's AI and generative AI technologies to deliver agile AI-powered transformation for federal agencies.

Signaling the next phase of their strategic alliance, the Federal AI Solution Factory is a collaborative hub housed within the joint [Data & AI Center of Excellence](#), launched earlier this year. Purpose-fit for federal agencies, the Data & AI Center of Excellence supports sensitive and classified workloads, while meeting regulatory compliance needs through secure data management platforms and assets.

"This partnership underscores our commitment to turning a vision for AI into reality, developing and deploying the most innovative and impactful solutions for federal clients," said Accenture Federal Services CEO, Ron Ash. "Working alongside Google Public Sector, we will help agencies unlock the full potential of AI to achieve their mission objectives more quickly, effectively, and responsibly."

Specifically, the Federal AI Solution Factory will focus on solutions designed to:

- Improve citizen services and enhance operational efficiency
- Empower data-driven decision making across mission domains
- Unlock insights from complex data to combat fraud
- Accelerate legacy IT system and application modernization across the enterprise

"We look forward to the next phase of our partnership with Accenture Federal Services with the launch of the Federal AI Solution Factory," said Google Public Sector CEO, Karen Dahut. "By combining cutting-edge AI technology – including advanced large language models and generative AI capabilities – with our deep understanding of mission needs, we're creating a powerful engine for innovation. This will equip agencies to better serve citizens, improve operational efficiency, and make data-driven decisions by harnessing the power of AI."

About Accenture Federal Services

Accenture Federal Services is a leading US federal services company and subsidiary of Accenture LLP. We empower the federal government to solve challenges, achieve greater outcomes, and build a digital core that is agile, smart, and secure. Our 15,500 people are united in a shared purpose to advance our clients' mission-critical priorities that make the nation stronger and safer, and life better for people. We draw out the best of Accenture's global network in nearly every industry, bringing proven commercial innovation to solutions built with advanced R&D, emerging technologies, and human-centered design at speed and scale. Together, we help clients create lasting value for their workforce, customers, and partners and make a difference for the country and our communities.
